

Please fill out this 2-page questionnaire as complete as possible and send it back to AEROX B.V.
fax: +31 (0) 30 677 91 89 or E-mail: info@aerox.nl

Name Company :

Address :

Postal-code or ZIP-code :

City :

Country :

Tel. :

Fax. :

Contact person :

Title :

E-Mail :

Date :

Your Project Identification :

Branche
(like fishfeed or petfood or WWTP or ...?) :

Description of the production process :

How many hours of production per year? :

Air flow (Actual m³/h or cfm. Important!) :

Temperature air (° C or F) :

Relative Humidity (%)
(RH before the scrubber if this is installed) :

Odour units (ou/m³ or DT), if measured :

Dust concentration (mg/m³) :

Presence of what gases? Concentration?
(like NH₃ or H₂S or Mercaptans or DMS...?) :

1. Height of the stack (above ground level) :

2. Height of the stack (above top of roof) :

AEROX B.V.

P.O. Box 1 NL-3450 AA Vleuten - Utrechtseweg 4A NL-3451 GG Vleuten - The Netherlands

Tel.: +31 (0)30 677 91 80 - Fax: +31 (0)30 677 91 89 - E-mail: info@aerox.nl - Internet: www.aeroinjector.com

ING Bank Utrecht 66.40.69.630 IBAN: NL 73 ING B 0664 069630 BIC: INGBNL2A - K.v.K. 31020309 - V.A.T. NL003094042B01

Max. temperature of the product (° C or F)
that has to be cooled/dried/etc with air :

Distance to first resident (houses) :

Nearby mountains? Height? :

Sketch of lay-out location
(plant + stack + houses) :
(top view, incl. some dimensions)

Flowsheet

(simple sketch of the process including position of the fan)

Requirements

Required odour reduction (%) :

Placement Aerox inside or outside? :

EEX- requirements :

Any other requirements :

Existing air pollution control systems

What dust control system is used ? :
(like cyclone or bagfilter or ...)

What odour control system is used ? :
(like scrubber or biofilter or...)

In case of feed production

Maximum Fat content? :

Maximum fish meal content? :

Additional fat supply before cooling? :

Additional flavours supply before cooling? :
